

Allison Camara
Spirit Commissioner
9 December 2021

Position Assessment:

During the months of November and December I have been working with other Spirit Commissioners to promote different spirit days, as well as Red and white on Fridays. We started off December with a warm and fuzzy week, and are handing out candy every day. We have also been working with Mrs. Pendleton to create a plan for future basketball games, as we have ideas for themes and decorations for rival games. We plan to decorate the gym for these events.

Standing Committee:

The standing committee I am a part of is the Spirit Crew 21-22. Overall, these past months have been going extremely well. We have worked out a very good plan overall to distribute candy and counts. We seem to all have a good System to send the counts in and have definitely improved our organization in the candy room.

Special Committee:

So far I have been in the set up and cleanup committee for Winter Formal. I helped set up the dance and I also found the tent for us to use during the event. I was there in the morning until late afternoon preparing for Formal. The next morning I was there with the sophomores again to clean up as I spent extra time cleaning the tennis courts so it was ready for the tent people to get the tent. One other special committee is the Decorations and themes of Basketball games. We have started the preparation of this, but will continue more into late december.

Mentor evaluation:

I think that my mentor and I should be spending a little more time together, but overall it has been pretty good. Kylee Brown always helps me when I need it with certain assignments that I am unsure how to do. When I am gone she always fills me in on what I missed when I ask. I always feel comfortable going to her when I am in need of help and don't hesitate to ask for help either.

Positive Comment:

One positive comment I have for the spirit crew is that we are very comfortable with each other. If one of us needs help we always have someone there to assist us. When our original chosen classes were not working for one of us, we easily found a way to create a better plan. I think that we also have really been working on getting more organized and it has improved us as a group.

One change:

One thing I would change is getting communication throughout the sophomore class to be a priority. I think that it has improved but could also be better. I feel that events are often rushed with little planning, and not being able to get the end result everyone wanted because of it. I think that if things had just a little more planned and communicated throughout the whole sophomore class, things would be a lot less stressful for everyone.

My impact:

I think my biggest impact lately has been helping the sophomore class with Winter Formal. I think that I put a lot of effort into helping the event be the best it could be with the information we had. Overall, I believe that the event went very well and it got done just in time because of everyone's contributions to create a great night for the student body. I was grateful to be a part of this event to create a great time for many students.
